TECHNICAL DATASHEET
GTEC Standard Board

Description
GTEC Standard Board is for use as a general drylining board.

Appearance
GTEC Standard Board is coloured ivory on the front and grey on the back, and has tapers down the long edges. Available in Square and Tapered Edge. Name and batch number of the board is written at the back and on the long edges of the board.

Composition
Aerated Calcium sulphate di-hydrate enclosed inside liners made from recycled waste paper with bound edges. Core and papers are bonded with starch. Edge glue is PVA.

Compliance
GTEC Standard Board complies with BS EN 520:2004+A1:2009 Type A

Physical Properties
Flexural Strength to BS EN 520:
9.5 mm board
Longitudinal breaking load ≥ 400N
Transversal breaking load ≥ 160N
12.5 mm board
Longitudinal breaking load ≥ 550N
Transversal breaking load ≥ 210N
15.0 mm board
Longitudinal breaking load ≥ 650N
Transversal breaking load ≥ 250N

Reaction to fire:
Euroclass A2-s1, d0

Moisture Content:
< 2%

Mass:
6.0 kg/m² for 9.5 mm board
8.0 kg/m² for 12.5 mm board
10.0 kg/m² for 15.0 mm board

Board weight:
17.3 kg for 2400 mm x1200 mm x 9.5 mm board
23.0 kg for 2400 mm x1200 mm x 12.5 mm board
28.8 kg for 2400 mm x1200 mm x 15.0 mm board

Thermal Conductivity, λ:
0.19 W/mK

Thermal Resistance, R:
9.5 mm = 0.050 m²K/W
12.5 mm = 0.066 m²K/W
15.0 mm = 0.079 m²K/W

Water Vapour Resistance Factor:
μ = 10 to BS EN 12524

Handling & Fixing
GTEC Standard Board may be cut using the ‘score and snap’ method. No power tools are required. Fixings must be suitable for the intended substrate:
GTEC Self Tapping Screws for attaching plasterboard to thin gauge metal (up to 0.7 mm);
GTEC Self Drilling Screws for attaching plasterboard to thick gauge metal (up to 2.5 mm);
GTEC High Thread Screws for attaching plasterboard to timber.

Jointing Finishing & Painting
GTEC Standard Board should be jointed and finished with GTEC Jointing Systems. Boards are suitable for gypsum finishing plasters manufactured to BS EN 13279-1:2008. Front of the board, coloured ivory, is suitable for decorating. The boards require priming with GTEC Universal Sealer prior to decorating.

Health & Safety
Please refer to the Plasterboard Health and Safety Datasheet available on our website.

Individual board weight values may occasionally exceed nominal weights published in this datasheet.
